## BUILDING PARTNERSHIPS FOR A STRONGER TOMORROW.

**Barzan Aeronautical LLC** is a wholly owned U.S. commercial subsidiary of Barzan Holdings QSTP. Barzan Holdings is a commercial company owned by the Ministry of Defense for the State of Qatar.

Barzan Aeronautical operates as an independent commercial company focused on the application and use of aerial ISR systems that support the defense and security requirements of Qatar, the United States and NATO allies. Barzan Aeronautical works with U.S. and NATO governments and top U.S. defense and aviation companies supporting the deployment of aerial ISR systems for defense, security and environmental use.

Barzan Aeronautical is always open for business, providing opportunity for U.S. companies and institutions to collaborate on new projects and programs.

## **Charleston is home to one of the largest “hubs” in aviation, engineering and advanced manufacturing in the United States.**

The “can do” attitude in business, the City’s global reputation for attracting some of the best and most talented engineers in the world, and the support of Charleston based academic institutions, made Barzan’s decision easy. We look forward to moving forward with joint initiatives with local and national companies and institutions.
